

Mine Planner / Surveyor

West Cache Gold Mine – Timmins, Ontario

Join a Growing Gold Mining Operation

Explor Resources Inc., a wholly owned subsidiary of Galleon Gold Corp. is seeking a highly motivated and detail-oriented **Mine Planner / Surveyor** to join our West Cache Mine technical services team in Timmins, Ontario. This is an exciting opportunity to play a key role in the development and advancement of an emerging underground gold mine while working alongside a dedicated team focused on safety, operational excellence, and continuous improvement.

Reporting to the General Manager, the Mine Planner / Surveyor will be responsible for underground survey activities, mine planning, design, and technical support to ensure safe and efficient mining operations.

Key Responsibilities

Mine Surveying

- Conduct underground and surface surveys to support mine development, production, and infrastructure projects.
- Maintain accurate mine survey control networks and coordinate systems.
- Prepare and update survey plans, stope surveys, development progress surveys, and as-built drawings.
- Ensure compliance with applicable regulatory and reporting requirements.
- Manage survey data and maintain accurate records and databases.

Mine Planning

- Develop and maintain short-term, medium-term, and long-term mine plans.
- Design underground development layouts, stopes, ramps, and associated infrastructure.
- Generate production forecasts and scheduling plans to support operational objectives.
- Monitor mining progress against plan and identify opportunities for optimization.
- Collaborate with geology, operations, and engineering teams to ensure efficient extraction of mineral resources.
- Prepare technical reports, presentations, and supporting documentation for management.

Technical Support

- Assist with reconciliation of mine production and resource models.
- Support budgeting and cost estimation processes.

- Participate in ventilation, ground control, and infrastructure planning initiatives.
- Promote and support a strong safety culture throughout the operation.

Qualifications

- Degree or diploma in Mine Engineering, Mining Technology, Geomatics, Surveying, or a related discipline.
- Minimum 3–5 years of experience in underground mining operations.
- Experience with underground mine planning and survey practices.
- Proficiency with industry software such as Deswik, MineSight, AutoCAD, Leapfrog, Vulcan, or similar mine planning and survey platforms.
- Strong understanding of underground mining methods and mine design principles.
- Experience with total stations, GPS systems, and underground survey equipment.
- Excellent analytical, organizational, and problem-solving skills.
- Strong communication and teamwork abilities.
- Eligibility to work in Canada.

Preferred Qualifications

- Experience in underground gold mining operations.
- Professional Engineer (P.Eng.) designation or eligibility for registration in Ontario.
- Ontario Underground Hard Rock Miner Common Core and Supervisor Common Core certifications.
- Experience supporting mine development and bulk sample programs.

What We Offer

- Competitive compensation package between \$115,000 and \$140,000 depending on experience.
- Opportunities for career growth and professional development.
- A collaborative and entrepreneurial work environment.
- The opportunity to contribute to the development of one of Timmins' newest gold mining projects.

Location

This position is based at the **West Cache Mine, Timmins, Ontario**. The successful candidate must be willing to work at site and participate in site-based schedules as required.

Apply Today

If you are looking for an opportunity to help shape the future of a growing underground gold mining operation, we encourage you to apply and become part of the West Cache team.

West Cache Gold Mine is committed to providing a safe, inclusive, and respectful workplace and welcomes applications from all qualified candidates.

We thank all applicants for their interest; however, only those selected for an interview will be contacted.
