

Job Title: Project Geologist or Senior Project Geologist

Location: Timmins, Ontario

Company: Galleon Gold Corp. through our Subsidiary Explor Resources Inc. – West Cache Gold Project

Position Type: Full-Time | Regular Business Hours

About the Company

Galleon Gold Corp. is an exploration and development company advancing the West Cache Gold Project located in Timmins, Ontario. As the Company executes its exploration drill program(s) and 86,500 tonne bulk sample program we are seeking a highly organized and motivated geologist to support our growing team.

Position Summary

The **Project Geologist or Senior Project Geologist** will play a lead role in the execution of diamond drilling programs for resource delineation and expansion. The role is a full-time, permanent position and will report directly to the Vice President of Exploration. The exploration office and core logging facility are located in Timmins, Ontario.

The work schedule is 5 days on, 2 days off. The Company will also consider rotational arrangements.

Key Responsibilities

- Assist with coordination and execution of drilling programs, including supervision of drill crews and core logging/cutting personnel
- Liaising and coordinating with construction managers and contractors engaged with surface development programs onsite
- Some core logging, oversight of QA/QC protocols and liaising with analytical laboratories
- Monitoring drill hole progress and downhole surveys for deviation and intercept spacing
- Assistance with hole planning and creation of drill hole layouts
- Assistance with analytical studies and 3D modelling to complement Feasibility Studies
- Coordination of drilling and geotechnical data transfer to master database

- Maintain health, safety and environmental compliance, including monitoring contractors' work in sensitive areas
-

Qualifications

The skills required for this position are generally in-line with candidates having 5+ years of industry experience, including:

- Bachelor's degree in Geology
 - Proficiency with core logging, geotechnical logging, sampling and QA/QC procedures
 - Ability to visualize and interpret geologic data in 2D and 3D
 - Excellent communication and organizational skills involving multidisciplinary personnel
 - Proficiency with Microsoft Office and core logging software
 - Exposure to and aptitude with GIS, database and 3D software
 - Experience with and/or interest in underground drilling and production programs
 - Eligibility to work in Canada and register with PGO
 - Valid driver's license
-

What We Offer

- Competitive compensation commensurate with experience of CAD \$105,000 to CAD \$150,000 (equivalent daily/ hourly rates for contract position)
 - Health Benefits package
 - Stable, 5-day a week work schedule
 - Opportunity to work within a growing exploration and development company in both surface and underground environments
 - Exposure to a dynamic mining project in the Timmins camp
-

Interested candidates are invited to submit their resume and cover letter outlining relevant experience to careers@galleongold.com.

We thank all applicants for their interest; however, only those selected for an interview will be contacted.
